EZ Pay Budget Plan

“Our EZ-Pay Budget Plan puts those rollercoaster payments to rest—for good!”

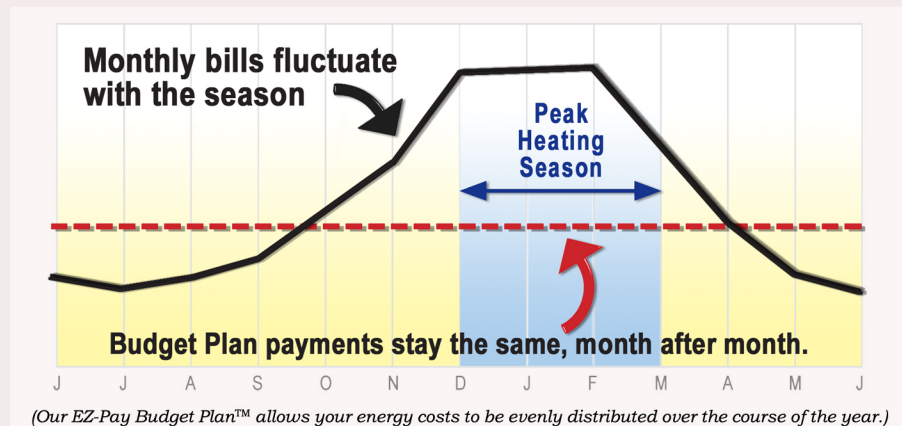

• How the EZ-Pay Budget Plan Works •

Our **EZ-Pay Budget Plan** is a proactive approach to paying your energy bills. As you are aware, the bulk of your annual fuel costs come during the winter months. However, with our EZ Pay Budget Plan your energy costs can be evenly distributed over the course of the year.

To figure your budget, we simply split your annual consumption into monthly installments. Then you make just one payment each month. (As the chart to the right clearly demonstrates, our **EZ Pay Budget Plan** can put those seasonal rollercoaster payments to rest.) If your consumption cost is less than we have estimated, we will apply the

difference toward next year’s plan. If your consumption cost is more than expected, we will adjust your installments to help ensure a zero balance by the end of the budget year.

Our EZ-Pay Budget Plan is offered as a proactive approach to manage your home energy expenses. There is no carrying charge or additional cost—it is simply our way of alleviating the surge of seasonal energy costs. Take advantage of this program and offer yourself “peace of mind” in knowing your energy costs are well managed.

• Rewards of the EZ-Pay Budget Plan •

No More Unpleasant Surprises Even if you need two or more deliveries in the same month, you will never face a huge winter fuel bill again. Our Budget Plan keeps your payments simple and predictable.

Automatic Payments Available Have your payments deducted on any MasterCard or Visa credit card—or sign up for EFT (Electronic Funds Transfer).

Extra Cash When You Need It Most By slashing your winter bills, you can keep those post-holiday bills at bay.
